Meet Melinda, Hailey, Brody, and Lily!

Shortly after giving birth to a premature baby, Melinda was diagnosed with Renal Cell Carcinoma. Eight years and several surgeries later, news about more cancer has resurfaced. This time, on the same day that her daughter Hailey, a teenager, began her own tumor battle. ♦ At 2 years old, Brody was diagnosed with Acute Lymphoblastic Leukemia (ALL). His initial 34 day stay in the hospital included rounds of chemo and steroids. Over the next 3 1/2 years, Brody will be continuing his battle receiving chemo in and out of the hospital. ♦ This summer Lily was diagnosed with ALL. After complications with treatment, Lily will now be spending a majority of the next 3 years away from her 4 siblings, while receiving chemo.

Join us on Nov. 23rd to support these families and their continued medical treatment.
